This infographic presents key data from Child Maltreatment 2022, the 33rd edition of the annual report on child abuse and neglect produced by the Children's Bureau within the U.S. Department of Health and Human Services. The report is based on data voluntarily submitted by child welfare agencies through the National Child Abuse and Neglect Data System (NCANDS). NCANDS collects case-level data on all children who received a child protective services response in the form of an investigation or an alternative response. The 2022 national data are based on data from all 50 States, the Commonwealth of Puerto Rico, and the District of Columbia.

We encourage you to view the Child Maltreatment 2022 report on the Children's Bureau website for more information.

4,276,000 referrals alleging maltreatment that include 7,530,000 children*

50.5% were screened out
49.5% were screened in

16.1% Victims
83.9% Nonvictims*

*Including 13.9% of the total who received an alternative response

Note: For these data, children are counted each time they are the subject of a report.

Victimization rates per 1,000 children (2018–2022)

- 2018: 9.4
- 2019: 9.2
- 2020: 8.4
- 2021: 8.2
- 2022: 7.7
CHILD MALTREATMENT REPORTERS

- Legal and law enforcement personnel: 21.2%
- Education personnel: 20.7%
- Medical personnel: 11.2%
- Social services personnel: 9.8%
- Mental health personnel: 6.1%
- Nonprofessionals: 15.2%
- Unclassified sources: 14.8%

Note: These data are for screened-in referrals.

TYPES OF MALTREATMENT

- Medical neglect: 1.9%
- Psychological maltreatment: 6.8%
- Sexual abuse: 10.6%
- Neglect: 74.3%
- Physical abuse: 17.0%
- Other: 3.4%
- Sex trafficking: 0.2%

More than three-fifths of all victims are neglected only.

Note: A child may be a victim of multiple types of maltreatment. This graphic is not to scale.

CHILD MALTREATMENT REPORTERS

Types of maltreatment for screened-in referrals as of the end of 2021:

- Medical neglect: 74.3%
- Psychological maltreatment: 17.0%
- Sexual abuse: 10.6%
